manner of use of irrigation permit, describe acreage to be removed from irrigation.
9. Use will be from January 1 to December 31 of each year.
Month and Day Month and Day
10. Use was permitted from January 1 to December 31 of each year.
Month and Day Month and Day
11. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and
specifications of your diversion or storage works.) Water permitted under DWR #41126 is allocated
State manner in which water is to be diverted, i.e., diversion structure, ditches,
to DWR #49603.
pipes and flumes, or drilled well, etc.
12. Estimated cost of works One million dollars
13. Estimated time required to construct works Well completed. 30" sfc csg set to 74 feet 20"
inter. csg set to 465 feet. 13 3/8" csg set to 1460 feet. Open hole to 3031'

14. Estimated time required to complete the application of water to beneficial use. One to two years

15. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.

This application is for the removal of water rights on injection well Cox I-1 and the transference of those water rights to production well 28-32. At a later point in time those water rights will be, once again, transferred to a new production well (yet to be drilled). Cox I-1 was originally permitted as a production well and now serves as an injection well; the water rights were never transferred until now. Use DWR maps 49603 and 41126 as supporting maps.
